The Seed Eaters

Playful Otter

Chough
Master
of
Aerobatics

**Hungry
Field Mice**

I am self-taught in this wonderful world of Creative Art. I have always called it my apprenticeship for when I retire. I have been a Golf Green Keeper all my working life and have been in close contact with the four seasons. Watching all that Mother Nature can show you, it seemed natural for me to paint and draw wildlife. Now that my apprenticeship has finished I can continue with my life long passion with, 'IMAGES OF NATURE'. *J.R Carey*
